

To make the place card holder, all you need is  
3 Linkydoodle links and a bit of double stick tape.

Put a piece of tape in between the 2 upright links.  
This will hold them together and provide a "stopper" for the place card.

Put another piece of double-stick tape at the ends of the uprights.  
That will help them stay in place on the base.

Now it is ready for a place card.  
One box of Linkydoodles will make 9 place card holders,  
Leaving one extra link for the artist.
